# WELCOME

This year, Canada's best alpine racers bring their A-game to RED Mountain Resort. As the selected host of the 2024 Teck Canadian National Championships, we welcome you to Rossland, BC to join us in celebrating incredible athletic achievements surrounded by a rich and deep racing culture here in Rossland. 2024 marks the 56th anniversary of RED Mountain hosting the first World Cup race in Canada (held in Rossland in 1968 and attended by 7,000 people). That first Canadian World Cup was won by our own Nancy Greene and France's Jean Claude Killy. The opening ceremonies will occur on March 18th in downtown Rossland and will include an athlete parade and late night shopping and awards for the first day of racing.

Join us for a historic week to remember where the best athletes from all over the world are here to compete. Explore the history of RED, Rossland, and the culture that has formed who we are today through over 100 years of skiing here in the Kootenays. We couldn't be more proud, excited, and honoured to have you here.

RED MOUNTAIN 1968

# HISTORY OF RACING AT RED & ROSSLAND

## Over 120 Years of History.

The iconic Ski Racing history at Red Mountain budded from a small seed planted in Rossland's culture by Olaus Jeldness, a Norwegian mining engineer who settled in Rossland during the gold mining boom at the turn of the century. As he became part of the community, he shared his love of skiing and grew a community of avid skiers. In the 1890's, he formed the Norwegian ski club and in 1897, he hosted the first-ever recorded ski race in western Canada. The shared passion for skiing exploded into one of the most prolific ski communities in North America rich with history.

In 1968, Rossland hosted the first FIS World Cup in Canada on The Face of Red mountain. In storybook fashion, Hometown hero, Nancy Greene who was coming off an Olympic gold and silver took World Cup gold in front of the entire community inspiring Red Mountain's next wave of world-class ski racers.

Throughout the late 1900's, **the Red Mountain Racers put more ski racers on the Canadian and US National teams than any other team in North America.**

*Pictured above: Olaus Jeldness (left), Norwegian mining engineer, and host of the first-ever recorded race in Western Canada*

# RED MOUNTAIN RESORT: NOW

## Fiercely Independent

RED Mountain is a place of powerful contrasts. We're the oldest resort in Western Canada yet we're also the home of the most significant terrain expansion in the last decade. We're proudly Canadian yet located only minutes over the USA border in the snowy Kootenay mountains. Guests love our unpretentious vibes and they also love the massive terrain—3,850 acres!— that puts us in the Top 10, size-wise, in North America.

Here at RED, we have everything you need and nothing you don't. You can stay a snowball's throw from the lift at a clean, modern hostel or kick back at a slope-side condo or in a boutique hotel. We're bad at math but proud of our numbers: nearly 3,000 ft of vertical drop; 300-inches of snowfall; pay-per-run in-bounds cat-skiing; and 5, count 'em 5, skiable peaks. We have famous tree runs, pristine powder, glorious groomers, Ikon Pass access, and the only snowbound taco truck in Canada. We were once under the radar, now we're the Next Big Thing.

## There Are No Strangers Here; Only Friends You Haven't Met.

Gold got 'em here. And the Kootenays kept 'em here. When gold-crazy miners struck pay dirt here in the late 1800s, they couldn't have possibly known what would be "left in the pan" by today. But their grit, courage, and resourcefulness set the tone for the town to come. And, thanks to them, Rossland today remains real in an era of artifice.

It might not be as rowdy as the Rossland of 1896 with its 42 saloons and 21 brothels, but this place has a pulse. You can feel it on the street, in the shops, or in the grocery store. It hits you as soon as you step out of your car. The hard-as-hobnails miners with pick axes over their shoulders have simply been replaced by hardcore fun-seekers with fat skis or mountain bikes over their shoulders. It's true many of them still have massive beards but, rest assured, the vibe is more "bro" than "brothel" heading into the winter.

Modern-day Rossland is that rare beast: A place of small town charm and big, big ideas. A real municipality at the base of a world-class ski resort. A four season paradise where there are more recreational opportunities than there are hours in the day. An historic downtown core with all mod cons, from gourmet espresso to book stores. And all of it is held together by the famously friendly locals and their commitment to making sure that Canadian Hospitality still means something, whether you're traveling as a family or on a solo powder pilgrimage.

# GENERAL EVENT SCHEDULE

## March 18th

8:30am - 2:30pm

Men's SL NC

8:30am - 3:00pm

# RED MOUNTAIN HOMES

## Real Life. Real Adventure. Real Community.

RED Mountain Homes is a limited collection of neighbourhoods created by adventurers for adventurers, homes for those who share our love of mountain living—every trail, every turn, every sunrise and snowfall.

The Red Mountain Racers would like to thank **RED Mountain Homes** and **Ace Project Marketing Group** who are proud sponsors of our volunteer and coaches appreciation gathering!

As RED and Rossland grow in coming years, RED Mountain Homes will invite lovers of the mountain life to learn more about a limited collection of neighbourhoods created by adventurers, for adventurers. RED Mountain Homes was created by people with a deep commitment to the culture, roots and spirit of RED and Rossland.

Visit the team at the Discovery Centre (open daily at the base of the RED Chair ) to hear more about the current single family, condo and townhome offerings... *and for a terrific view of the race course!*

Visit [redmountainhomes.ca](http://redmountainhomes.ca) to learn more about our offerings.
