

# NEW LOOKS FOR THE 23/24 WINTER.

## MID-MOUNTAIN CABINS: REIMAGINED

This utterly unique, on-mountain, ski-in only experience at RED dishes up a night under the stars with an inclusive dinner for all guests, a new Couples Suite queen bed cabin, optional baggage transportation, a full F&B bar, games, outdoor firepit, and morning breakfast options all at the beautifully-made central Clubhouse.

Launched in late 2020, **The Constella: A Cabin Collective** comprises six overnight cabins and a central clubhouse, nestled far on the backside of Granite Mountain in Paradise Basin. These individually named cabins form a very special constellation at **RED** and have quickly become our most FOMO offering. ("FOMO-est" isn't a word...). This overnight experience provides direct skiable access first thing in the morning, guaranteeing a seirously memorable level of stoke (and fresh tracks).

Snagging a reservation at one of these eco-friendly gems with the clear Kootenay night sky fully surrounding you, will make you feel like a star. *Shred. Sleep. Repeat.* has never felt more accurate.

## CAN'T PASS THIS UP

For 2023-24, **RED** is proud to continue our partnership with the **Ikon Pass** program from Alterra Mountain Company. As the 44th Ikon Destination, RED slid into an independent shred community that includes **Jackson Hole, Revelstoke, Snowbird, Banff Sunshine**, and many other hallowed hardcore destinations. This mighty mountain maintains its independence, its scruffy-chic style, and its singular voice within the ski resort world, and is now accessible to a wider audience of equally mighty ski and ride diehards. If 2023-24 isn't the year for your most serious powder pilgrimage yet, we're not sure what you're waiting for. An Ikon Pass is truly your key to the Powder Highway kingdom.

## IT'S BACK: PAY-PER-RUN CAT SKIING!

We love to hear it purrrr....

Sometimes imitated, but never duplicated, we're thrilled to announce the return of our beloved and incredibly popular pay-per-run Mt. Kirkup Cat Skiing operation!

From the summit of Grey Mountain, hop off the chair and head to the pickup point to hitch a ride in our snowcat (nicknamed the *Trip Wagon*) to the top of adjacent Mount Kirkup.

You and 12 other guests will savour powder skiing with an incredible 2,054 foot vertical drop (626 meters) on runs that take you back to the Grey Chairlift! We're the only ski resort in Canada offering this type of cat skiing experience. No avalanche gear required or guide needed! Shred back down to the bottom of the Grey Chair or even further down to the Topping Creek Chair! Hop back on the chair and do it all over again. Your legs will need the rest!
